Shamanic Seminars with Dan Mor (Hp)

Aura Chakra Reading – Any One can Do it!

This technique has been taught to thousands of pupils over the last 15 years. In a simple and astonishingly effective way it gives the reader immediate insight into the client's energetic system, rendering information on energy distribution and emotions regarding his or her main topics.

ACR develops all of the user's individual talents of subtle perception, not only the visual ones and teaches highly sensitive persons a systematic way to control the multitude of incoming information.

Meeting the Angels – Initiation Seminar

Beings of Light are – like humans – specialists in their particular fields of expertise.

This 2-day seminar gives you a kick start into the world of energetic healing with angels. A powerful shamanic ceremony will initiate you to use the following Arch Angel healings: The Raphael Heart Balm, The Clearing Fire of Michael, The Uriel Earth Pentagramme, The Gabrielle Water of Life, The Metatron Pyramid of Light. PLUS: Subtle communication with angels - How to build an altar – The Holy Guardian Angel Ritual – The Inner Structure of a true prayer - The portable Crystal Altar - ...

Saydiyay Massage – The Magical White Feather Touch

This is my favourite massage! It's origins lie on the long-lost continent of Lemuria. It's purpose is joy and awakening the whole body by activating and distributing the sensual energy of the 2nd chakra. The sexual energy is best-suited to nourish deserted regions of our "temple of the soul", and to soften our muscles by melting down the "frozen" emotions they hold.

In old times, Lemurian Tantra Temple Massage was given in the temples of the Great Goddess by priestesses and priests. Nowadays, a special initiation ritual enhances the skills of the human massage therapist with the tender & caring love of the Rose Angels of the Goddess.

A lot of oil is being used for the gentle strokes, spirals, vibrations and micro massage. Saydiyay is a kind of deep "soul communication" using the body's language. It has a profound rejuvenating effect.

Saydiyay means: "The touch that makes you happy" !

Rainbow Feng Shui

RFS contains the most important and effective tools from different Feng Shui schools around the world and combines them with Goddess Radionic and Shamanic Techniques. It is easy to apply, dynamic and not based on ideas of a quasi-perfect static Feng Shui. Our rooms should support us reaching our actual goals and fulfilling our true needs. RFS is highly flexible and focusses on personality growth, also making use of Goddess Radionic for optimal electrosmog protection.

Kanseya – Riding the Winds of the Creator

The three Kanseyas are the basic level of my favourite system of meditation: Three-Rays-Reiki. They are not only meditations *in the closer sense*, but also creative, powerful tools of energetic healing – sponsored by the Goddess and Arch Angels. I would like to offer you the Kanseya meditations for the Sexual and the Heart Chakra, to cleanse & revitalise those energy centres. Forgiveness, joy and love are the keys to deep and true healing of fears, shame and guilt.
